## Symboler / Symbols

~ = i det samlede tal indgår estimerede antal / the total number includes estimated specimens

♦ = estimat / estimate

\* = ikke optalt / not counted

Dødsfald inkluderer både naturlig død, aflivning ved sygdom og aflivning af overskudsdyr f.eks. til foder (f.eks. geder og marsvin)

Deaths include natural deaths, medical euthanasia and management euthanasia (e.g., goats and guinea pigs)

Enkelte pungdyr vil have ændringer fra forrige års sluttal til dette års starttal.

Dette skyldes, at nogle unger først observeres efter færdiggørelse af Dyrebestandslisten.

Some marsupials will have changes in their total from the end of last year to the beginning of this year. This is due to offspring, which was only observed after completion of the inventory.
